WALKING ON A CLOUD

Your One-Stop Shop!

Our vast selection continues to be a key element that sets us apart from other shoe stores and this season is no exception. Walking On A Cloud is definitely the one-stop shop for all your summer footwear needs. And as I always say...you can never have too many shoes! Summer is definitely my favourite season for footwear and this seasons styles are better than ever.

One of the hottest trends for women, are shoes with a feminine flair. Sandals adorned with faux jewels, striking sequins, beautiful beads and big, bold flowers. These elements add glamour and uniqueness to a simple outfit and can be paired with anything from jean shorts to a funky black dress.

Gladiator sandals are back again and more popular than ever. Casual and dressy flats, wedges and heels decorated with metal studs, chains and buckles. The latest gladiator styles make a bold statement.

Colour trends for Spring 2011 include neutral tones, silver and bronze metallics, and opposing bright reds and bold colourful patterns. Patents and a plethora of snakeskin prints provide additional visual interest.

We also witness a revival of some old classics. Long live the Clarks Desert boot! Originally introduced in the 1950's, it is the longest single selling shoe in the marketplace. The 80's deck shoe has also returned and is available in more colours and materials than imaginable. Lastly, our collection of retro sneakers are perfect with a pair of jeans, khaki's or dockers.

You will find all of these & much, much more when you visit one of our stores.
